

## **ICON DENTAL SURGERY**

### **Friday September 16<sup>th</sup>**

Principal dental Dr Andrew Mollay of Icon Dental, volunteered the services of 3 dentists including himself, 1 therapist and support staff.

There was an 88% attendance rate with 15 out of 17 patients being treated. Each patient was given a one hour appointment to ensure treatment productivity was high especially for those with high dental needs. Treatment performed was examinations, scale and clean, oral hygiene, restorations and extractions. In total the amount of treatment performed was \$6,236.00

The dental rescue day in Yeppon was well received and assisted those who were homeless, living in shelters and those with behavioural/ mental health issues. Charities involved were Ozcare, Jacks House and Verbyl who were also very supportive of the National Dental Foundation.

The volunteering staff enjoyed their day. Thank you to Amanda and Caroline in their preparations.

Additionally a local media (The Mirror, a Capricorn Coast weekly newspaper) reporter and photographer attended the clinic and took notes and photographs on the day in support of Icon Dental in its Dental Rescue Day. The NDF hopes this will bring other dentists in the area to volunteer.

A big thankyou also needs to go out to other charities and organisations whom may not have participated on the day but were happy to assist spreading the word about Icon Dentals dental rescue day.

Quote OzCare House Mens Hostel

“It was outstanding in co-ordination of delivery. We thought you did a brilliant job. We hope there can be more of these it is a service filling a gap in the system and most needed.
